AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have no taste, no smell, no color, and which should be easily dissolved in water, and which should be of great medicinal value. Ayer's Pill has done all this, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much gripping pain and revulsion in the system as to more than counterbalance the good to be derived from them. Ayer's Pill is free from all such qualities, unless it arise from a previously existing affection or derangement in the bowels. Being perfectly vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may instance the following: Ulcers, Indigestion, Languor and Loss of Appetite, Constipation, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of disease action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the head, Ulcers of the bowels, &c., &c. In short, any ease where the strength of the body is exhausted, they have also produced some singularly successful cures in Rheumatism, Gout, Dropsey, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant properties, directly restore the nervous system, removing the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand easements in which a physician is required to be numbered, the thousand difficulties he has to surmount, and the thousand ways in which he is compelled to be circumlocutional, are all removed by Ayer's Pill. It is a simple, safe, and efficacious remedy to employ when in need of a cathartic sudorific.

JOHN A. MONROE,

ATTORNEY AT LAW,

FRANKFORT:

THURSDAY : : : : : DECEMBER 7

REMOVAL.

The office of the "KENTUCKY YEOMAN" has been removed to the new three-story building on Main street, near the corner of St. Clair.

State Democratic Convention.

We are authorized to state that the Democratic Central Committee, who have been requested to name the time and place for holding a Convention of the Democratic party of Kentucky, for the nomination of candidates for Governor and Lieutenant Governor, and the transaction of other matters pertaining to politics, recommended to the party that they meet in State Convention at Frankfort, on the 15th day of March, 1855.

In view of the fact that the State Convention is definitely fixed in March, we think that the time appointed for our County Convention, in Saturday's paper, is unnecessarily early. We consulted with a good many of our friends from the county as well as in the town yesterday, and as they agreed with us in opinion, we take the liberty of withdrawing the appointment herewith, and leaving it open until further notice is given.

The President's message, received yesterday, fills our columns to-day, to the exclusion of almost every thing else. It is a fine document and presents the nation in a healthy and flourishing condition. President Pierce gives a good account of himself and we recommend his message to an attentive perusal of our readers.

It will be seen from a notice in our paper to-day that the Central Committee have reconvened the 15th of next March, and Frankfort, at the time and place of holding our next State Convention. The preliminaries being settled, we hope the democracy of every county in the State will adopt it without delay. Let us have a full representation and a ticket will be presented to the people in August, whose success will be beyond doubt.

Last Saturday we expressed somewhat of a preference for Frankfort and the 8th of January. The Committee have decided with us in our particular and against us in no hogh, since it has been suggested to us that the law states the waters in our principal rivers, and the fact that but few counties have as yet appointed delegates might prevent a full attendance on the 8th; we very cordially acquiesce in the decision of the Committee, and think, in view of the circumstances, the 15th of March is more appropriate time. Our principles are known to every one, and as upon these open and avowed, we have sought since our existence a party, and shall do so in the approaching contest, if really matters but little, so that the elements be propitious and sufficient time allowed for our primary meetings, when the State Convention, which is again to promulgate them, may as easily be delayed.

The day following the Convention is fix'd. A ample time is allowed for the primary meetings of the democracy throughout the State, and on the 15th of next March, we hope to see every county fully represented at Frankfort. We shall publish the proceedings of all the county Conventions as soon as they reach us, and our friends will confer a favor by forwarding them.

ELECTION IN KANSAS.—On the 2d ultimo, an election was held in Kansas Territory for delegate to Congress. Mr. FLENNING and General WHITFIELD were the candidates, and the latter, a pro-slavery man, was elected by a very large majority. Then came, it is said, an abolitionist, and one of the publickly notorious states that Gen. Whitfield is an advocate of "slavery over you."

A close CONGRESSIONAL RACE IN ILLINOIS.—It has been for some time doubtful who will be elected. Mr. ALLEN, D., was elected to Congress in the Sixth Congressional District of Illinois. This official returns now as he has resided at Springfield, by which it appears that ALLEN has been elected by one majority.

SENATOR DAY OF GEORGIA.—was married in Memphis, on the 25th of November, to Mrs. ELIZA M. WILLIAMS.

The New Orleans *Bee* and *Dollar* have begun prohibited to enter the port of Vera Cruz, as has Senor Hidalgo, Gen. SANTA ANA, considers them "subversive to the cause of order."

Mr. JONAS FOWLER was found dead in his bed, in East Mayville, on Monday morning last. The Coroner's jury decided that he died of disease of the heart. Mr. F. was an old and orderly citizen, and an honest man.

Two negro men confined in the jail of Mayville, when the jailor, Mr. JOHN McDOWELL, entered the jail Friday night on his last round of duty for the evening, knocked the jailer down and made their escape. They had been chained, but by some means had broken their chains off.

A very singular accident occurred at Cleveland on Monday last, noticed in the Herald. A horse standing in a livery stable ran his tongue through a crack in a partition between two stalls. It was caught by another horse, and thus one drawing back, bit his own tongue completely off. It was found in the manger of the next stall.

CHARLES ANDERSON, residing in the north-western part of Pontotoc county, Miss., was robbed on the 5th ult., of \$5,000 in gold. A stranger came to the house to stay all night, who pretended to have the mumps, had his jaws and fingers up, and refused to take off his hat. He went to bed early and sometime during the night, perpetrated the robbery and decamped. The box that contained the money was afterward found.

Elder J. T. Johnson of this State is preaching in Nashville.

The Newark, O. Times says that the loss to the Central Ohio Railroad, occasioned by burning of seven cars and contents, four miles from that place on Saturday week, ranges between \$19,000 and \$12,000.

PRESIDENT'S MESSAGE.

Fellow-citizens of the Senate
and House of Representatives:

The past has been an eventful year, and will henceforth be referred to as a marked epoch in the history of the world. While we have had a happily preserved from the calamities of war, our domestic prosperity has not been entirely uninterrupted. The crops in portions of the country have been unusually poor. Disease has prevailed to a greater extent than usual, and the sacrifice of human life, through epidemics by sea and land, is without parallel. But the pestilence has swept by, and restored salubrity invades the abodes of their homes, and the return of business to its ordinary channels. If the earth has rewarded the labor of the husbandman more bountifully than in preceding seasons, it has left him with abundance for domestic wants, and a large surplus for exportation. In the present, therefore, as in the past, we find ample grounds for reverent thankfulness to the God of Grace and Providence, for His protecting care and merciful dealings with us as a people.

Altho' our nation has been arrested by painful interest in pressing events, yet our country feels no more than the slight vibrations of the convulsions which have shaken Europe. Individuals, we cannot represent sympathetically with human suffering, nor regret for the causes which produce it. As a nation, we are resolved, that whatever interests the peace, or checks the prosperity, of any part of Christendom, tends, more or less, to involve our own. The condition of States is not the lot of individuals. They are mutually dependent upon each other. Ambition rules in both, and, with such an empire, we are bound to depart from our peaceful policy, and become a great naval power. Nor would this country be better situated in war with one of the secondary naval powers. Through the naval disparity would less, the greater exertion, and more expense of our wide-spread commerce, would give any of them a like advantage over us.

The proposal to enter into negotiations to propose to privateers, in case this country is forced into war with the great naval power, is not entitled to favorable consideration, which would be a proposal to agree to, or accept, the services of volunteers for operations on land. When the honor of the rights of our country require it to assume a hostile attitude, it confidently relies upon the patriotism of its citizens, not exclusively devoted to the military profession, to augment the army and the navy, so as to make them fully adequate to the emergency which calls them into action. The power to surrender the right to employ privateers, is properly founded upon the principle of private property of unfeudalized free-companions, though it could, by some of its advocates, be superseded, at least in part, by a general resolution to assume a hostile attitude.

It is, however, a very important article.

The naval expedition, proposed about two years since for the purpose of establishing a relation with the empire of Japan, has been ably and skilfully conducted to a successful termination by the officer to whom it was entrusted. A treaty, opening certain of the ports of that populous country, has been negotiated, and, in order to give full effect thereto, it only remains to exchange ratifications, and a compact to commence regulations.

The war lately concluded between the United States and Mexico settled, for the most part, of blacks and persons of mixed blood, had previously given other indications of mischievous and dangerous propensity. Early in the same month, however, it was suddenly observed to me from the report of the Trans-Company, and taken to Greytown, the plunderers of the ship and their pursuers were driven back by people, who only protected the wrong doers and spared the plunderer but treated with rudeness and violence those who sought to recover their property.

Such, in substance, are the facts silent to my consideration, and proved by trustworthy evidence. I could not doubt, that the case demanded the intervention of this government.

Judge required that a reparation should be made, and that the ship should be released.

The naval expedition, proposed about two years since for the purpose of establishing a relation with the empire of Japan, has been ably and skilfully conducted to a successful termination by the officer to whom it was entrusted. A treaty, opening certain of the ports of that populous country, has been negotiated, and, in order to give full effect thereto, it only remains to exchange ratifications, and a compact to commence regulations.
